

Mobile App for Consumers & Small Fleets

The **VOYO** app is designed for consumers and small fleets. Based on OEM level telematics, the app includes many of the advanced features offered on the VOYO platform. Options are available to partners to include a combination of equivalent features in their branded mobility apps.

KEY OPERATING DATA

Monitor tire pressure, oil life, fuel level, odometer, and battery health

LOOKOUT ALERTS

Up to 18 real time safety and malfunction warnings including driver behavior

SCAN PRO DIAGNOSTICS

Read manufacturer trouble codes from all car controllers

VEHICLE ACCESS

Lock/unlock doors and trunk; use Autokey for handsfree operation

APP DATA SHARING

Information and alerts shared with multiple users in-app, by SMS or email

CODE DESCRIPTIONS

Consumer level descriptions and fixes accessed within app

TRACK TRIP DATA

Display routes and track time driving, mileage, and fuel use trip by trip

FLEET VIEW

Monitor a network of cars in real time from a single screen, by vehicle or driver

MORE CAR HEALTH

Clear codes; review historic scan records and official recall notices

Operating Data & Vehicle Control

Location & Driving Data

Scan Pro & Recall Data

Lookout Alerts

Vehicle Dashboard

Admin vs. User policies

AES 256-bit encryption
